Regulatory Framework

**Grove Community Housing Association –
Regulatory Judgement**

Report 2024/25

Introduction

The Department for Communities (DfC) is the Regulatory Authority for Registered Housing Associations (RHAs) in Northern Ireland. Housing Regulation Branch within DfC undertakes this regulation activity on behalf of the Department. We seek to protect the interests of tenants, homeless people and others who use the services provided by RHAs. To ensure this is achieved, RHAs must provide us with the necessary information on a regular basis to demonstrate how the Regulatory Framework Standards are being achieved.

RHA Background

Grove Community Housing Association (GCHA) was first registered with the Industrial and Provident Society in 1976 and with the Department of the Environment the following year. The association was established to address poor housing and environmental conditions in the North Belfast area and has worked to improve these through renovating old dwellings and building new homes. It has approximately 215 properties in and around the Shore Road area in North Belfast.

Regulatory Approach

Through our risk-based and proportionate approach to regulating RHAs, we focus our attention on the important risks and key aspects of an RHA's performance. This includes having different levels of engagement depending on an RHA's risk and performance profile.

When we refer to risk, we are specifically referring to the risk to the interests of tenants and other service users. This perspective may differ from an individual RHA's internal assessment of its operational risks. This judgement has been completed in accordance with the risk-based Regulatory Framework (revised 2024).

Overall Opinion
