Regulatory Framework

Connswater Homes – Regulatory Judgement

Report 2021/22

Introduction

The Department for Communities (DfC) is the Regulatory Authority for Registered Housing Associations (RHAs) in Northern Ireland. The Housing Regulation Branch within DfC undertakes this Regulation activity on behalf of the Department and we seek to protect the interests of tenants, homeless people and others who use the services provided by RHAs. To ensure this is achieved, RHAs must provide us with the necessary information on a regular basis to demonstrate how the Regulatory Framework Standards are being achieved.

RHA Background

Connswater Homes, previously known as Connswater Housing Association, was formed and registered with the Department of Environment in 1977. With much of the local regeneration in the Connswater area of East Belfast now completed, in 2003 the association made the decision to move outside its traditional boundaries and actively seek development opportunities province wide. The organisation became known as Connswater Homes in 2006.

It currently owns and manages over 1,100 units and continues to expand with housing developments located in Belfast, Antrim, Lisburn, Newtownabbey, Newtownards, Portaferry and Downpatrick.

Regulatory Approach

Through our risk-based and proportionate approach to regulating RHAs, we focus our attention on the important risks and key aspects of the RHA's performance. This includes having different levels of engagement depending on the RHA's risk and performance profile.

When we refer to risk, we are referring to the risk to the interests of tenants and other service users. This may not always be the same as an RHA's own detailed assessment of the operational risks it faces. This judgement is completed in accordance with the risk based approach to regulation introduced in April 2017.
