Neighbourhood Renewal
Census Comparison Report

Lenadoon
Neighbourhood Renewal Area
March 2014

CENSUS DATA 2011

NINIS has recently made available the 2011 Census data for the Neighbourhood Renewal Areas. This has provided us with an opportunity to update the 2001 Census data which was part of the evidence base used to baseline the Neighbourhood Renewal Areas within the Mid Term Review of Neighbourhood Renewal.

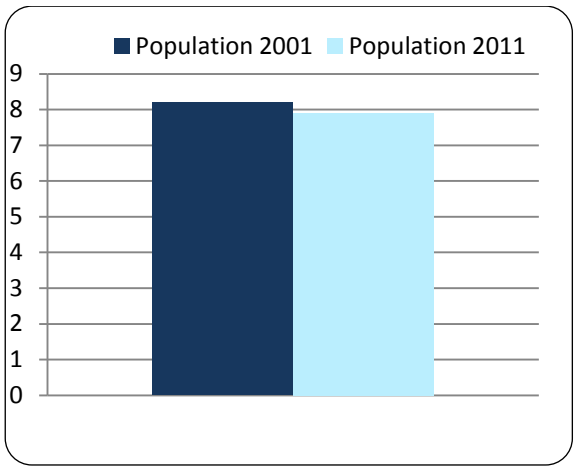
The following report provides 2001 Census and 2011 Census information in relation to:

Population
Age Profile
Community Background
Lone Parent with children
Lone Pensioner Households
Long Term illness Working Age
Working Age population with no qualifications
Economic Inactivity
Unemployment

Year Last Worked data, a new indicator introduced in the 2011 Census has also been provided.

1. Population

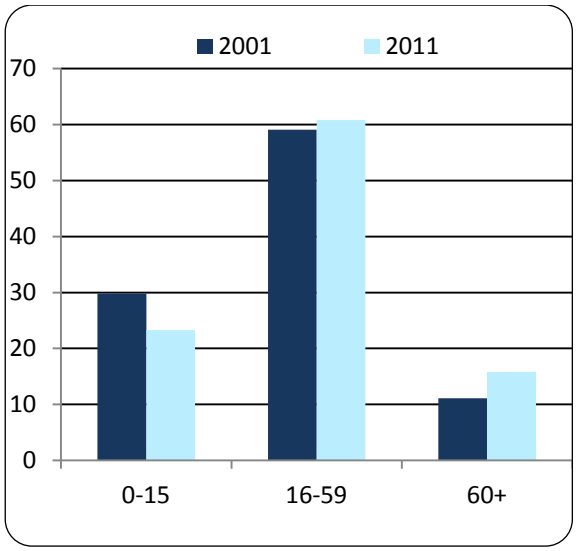
Figure 1 Population of Neighbourhood Renewal Areas (Thousands)



Lenadoon NRA has the 20th largest population amongst the NRAs. It has seen a 3.7% decrease in its population between 2001 and 2011, from 8200 to 7897.

2. Age

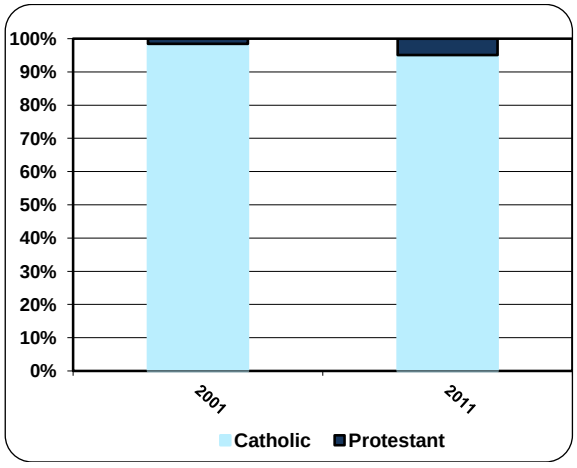
Figure 2 Age Profile of Neighbourhood Renewal Area (%)



Within Lenadoon NRA the population of 0-15s is the only grouping within which there has been a percentage point (pp) decrease (6.5 pp). This is greater than the decrease for this grouping across both all NRAs (4.4 pp) and for non-NRAs (2.3 pp).
The percentage of the population within the 16-59 and over 60s age groupings has shown an increase, 1.7 pp for 16-59s and 4.7 pp for over 60s. The increase in percentage of 16-59s is less than that across all NRAs (4.1 pp) and is contrary to the 0.1 pp reduction for non-NRAs.
For the over 60s the percentage increase is greater than that across both all NRAs (0.3 pp) and non-NRAs (2.5 pp).

3. Community Background

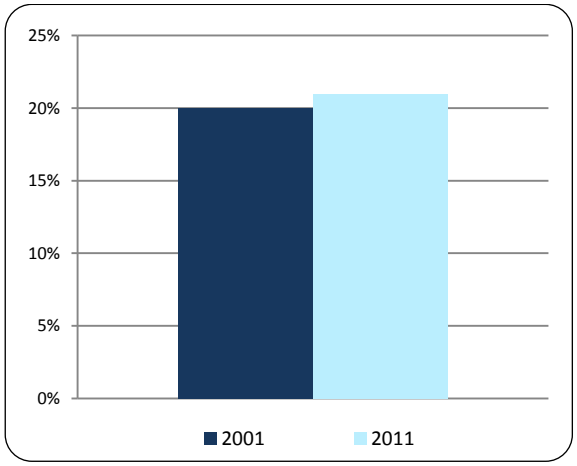
Figure 3 2001 – 2011 Community Background of Neighbourhood Renewal Area



In 2001 the population included 97.8% Roman Catholic and 1.5% Protestant. 2011 figures show a 4.7 pp decrease in the Roman Catholic community and a 3.3 pp increase in the Protestant community.

4. Lone Parent with Children

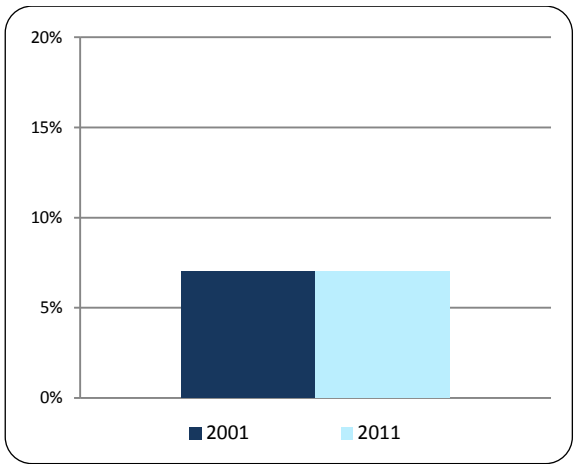
Figure 4 Lone Parent with Children Households in Neighbourhood Renewal Area



The percentage of households consisting of a lone parent with children increased to 21% in 2011, an increase of 1.0 pp compared to 2001.
This continues to exceed the percentage across all NRAs (17%) and in non-NRAs (8%).

5. Lone Pensioner Households in Neighbourhood Renewal Areas

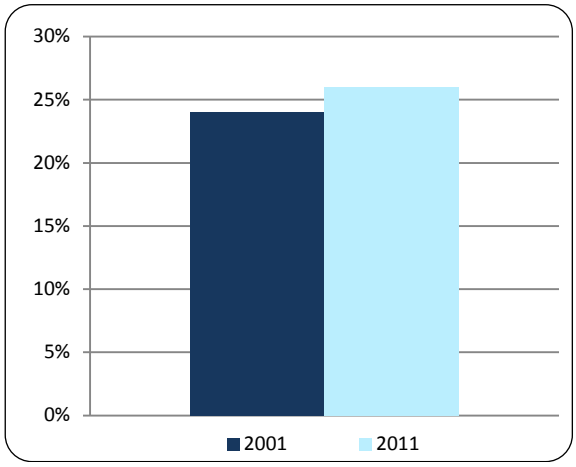
Figure 5 Lone Pensioner Households in Neighbourhood Renewal Areas



The percentage of lone pensioner households has not changed between 2001 and 2011, remaining at 7%. This is lower than the percentage across both all NRAs (11%) and non-NRAs (11%).

6. Long Term Illness working age

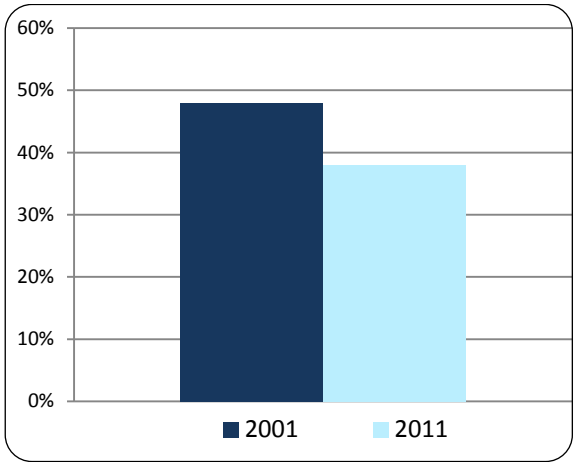
Figure 6 Working Age Persons with a Long-Term Illness in Neighbourhood Renewal Area



The percentage of working age people with a long term illness increased to 26%, an increase of 2.0 pp. This is greater than the percentage across both all NRAs (25%) and in non-NRAs (15%).

7. Working Age Population with No Qualifications

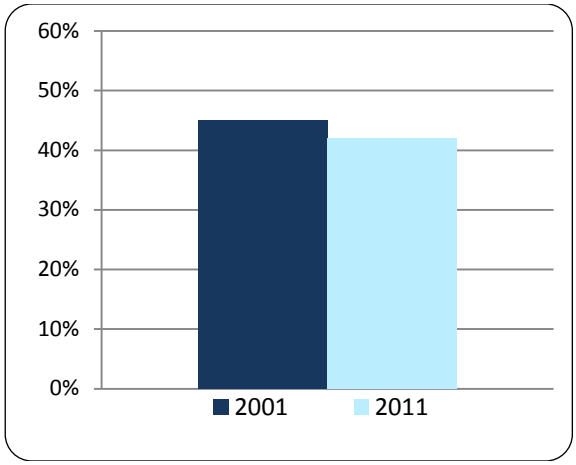
Figure 7 Working Age Population with No Qualifications in Neighbourhood Renewal Area



Lenadoon NRA has shown a 10.0 pp decrease in the working age population with no qualifications, from 48% in 2001 to 38% in 2011. This is less than the percentage across all NRAs (41%) but exceeds that in non-NRAs (27%).

8. Economic Inactivity

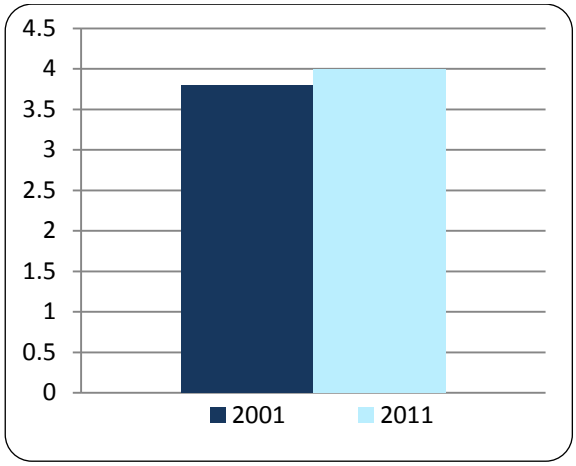
Figure 8 Economic Inactivity Rates in Neighbourhood Renewal Areas



The percentage of economically inactive people in Lenadoon NRA has decreased to 42%, a reduction of 3.0 pp. The percentage remains less than the average across all NRAs (50%), but is greater than that in non-NRAs (35%).

9. Unemployment

Figure 9 Unemployment Rates (%) in Neighbourhood Renewal Areas



Lenadoon NRA has seen a small 0.2 pp increase in its unemployment rate, increasing to 4%. This is greater than the percentage across all NRAs (3.6%), and exceeds that in non-NRAs (2%).

10. Last Year Worked

This is a new indicator within the 2011 Census and will be measured in future years.
